```
Section 1
 Data entry 1-1
   type:
       class, subclass
   parameters:
        param1:value1
        param2:value2
   labels:
        label1, label2, ...
   data:
        label1_data1, label2_data1, ...
        label1_data2, label2_data2, ...
 Data entry 1-2
   type:
       class, subclass
   parameters:
        param1:value1
        param2:value2
   labels:
        label1, label2, ...
   data:
        label1_data1, label2_data1, ...
        label1_data2, label2_data2, ...
```

```
Data entry 2-1
 type:
      class, subclass
 parameters:
      param1:value1
      param2:value2
 labels:
      label1, label2, ...
 data:
      label1_data1, label2_data1, ...
      label1_data2, label2_data2, ...
Data entry 2-2
 type:
      class, subclass
 parameters:
      param1:value1
      param2:value2
 labels:
      label1, label2, ...
 data:
      label1_data1, label2_data1, ...
      label1_data2, label2_data2, ...
                  . . .
Section A
 Data entry A-1
  type:
       class, subclass
  parameters:
       param1:value1
       param2:value2
  labels:
       label1, label2, ...
  data:
       label1_data1, label2_data1, ...
       label1_data2, label2_data2, ...
 Data entry A-2
  type:
       class, subclass
  parameters:
       param1:value1
       param2:value2
  labels:
       label1, label2, ...
  data:
       label1_data1, label2_data1, ...
       label1_data2, label2_data2, ...
```
